## **DETAILED ACTION**

### ***Continued Examination Under 37 CFR 1.114***

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on February 8, 2008 has been entered.
2. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

### ***Election/Restrictions***

3. Applicant elected Group I, Species A (Figures 1-2) in the reply filed on June 12, 2007.

### ***Claim Rejections - 35 USC § 112***

4. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

5. Claims 1, 3, 4, 6, 7, 9, 10, 12 rejected under 35 U.S.C. 112, first paragraph, because the specification, while being enabling for "asymmetrical chamber" as in figure

2D, does not reasonably provide enablement for a categorical "asymmetrical chamber". The specification does not enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and/or use the invention commensurate in scope with these claims. The "first oblique angle defining an asymmetrical chamfer" is asymmetrical in the view shown in figure 2D but chamfer 32b is symmetrical in an elevation view that is perpendicular to the view shown in figure 2D.

### ***Response to Arguments***

6. Applicant's arguments with respect to claims 1, 3, 4, 6, 7, 9, 10, 12 have been considered but are moot in view of the new ground(s) of rejection.
